WERKZEUGE WIE DU

# CREATED FOR QUALITY AND SAFETY IN DAILY USE.

## Your quality demands are our demands:

We manufacture tools for you that impress in terms of function, price and performance. Precise, durable and safe - tools made for everyday use. Because we know: Good work can only be done with good tools.

# STRONG

LIKE YOU.

## Discover the new ROCKET 7:

Strong, persistent, reliable. Drill in reinforced concrete and highly abrasive materials such as natural stone with the ROCKET 7. Fast and with maximum lifetime

**ROCKET**<sup>7</sup>  
HAMMER DRILL BIT

# ROCKET7

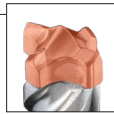

The SPECIALIST for reinforced concrete

## ROTARY HAMMER DRILL BIT WITH 4 CUTTING EDGES SDS-PLUS

### Maximum lifetime

- Solid carbide head for optimal resistance at very high temperatures - therefore perfectly suited for frequent drilling in reinforcement
- Extremely strong head connection due to an innovative diffusion welding process - therefore maximum safety against head breakages

### Maximum security

- Wear marks for identifying the wear limit in accordance with the PGM
- Reinforcement chamfers prevent jamming in case of reinforcement hits
- 4-spiral helix geometry for lower vibrations to protect people and machine

### Extremely durable

- 4-spiral helix geometry for an evenly spread wear
- Drill bit body made of high-quality tempered steel [34CrNiMo6]

### Range of application

- Reinforced concrete
- Concrete
- Natural stone
- Masonry

### Characteristics

- Durable
- Powerful
- Precise
- Low vibration

### Hammer drill bit set SDS-plus **NEW**

## HAMMER DRILL BIT WITH 4 CUTTING EDGES SDS-PLUS AND SDS-MAX

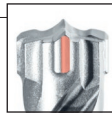

### Maximum precision

- 5 crushers use impact and torsion to create precise drill holes in reinforced concrete
- Inserted carbide cross plate for an exact centering on the drill bit body
- 4-spiral helix geometry for a high running stability and optimal guidance in the drill hole
- Pilot centering tip for precise spot-drilling without slipping off

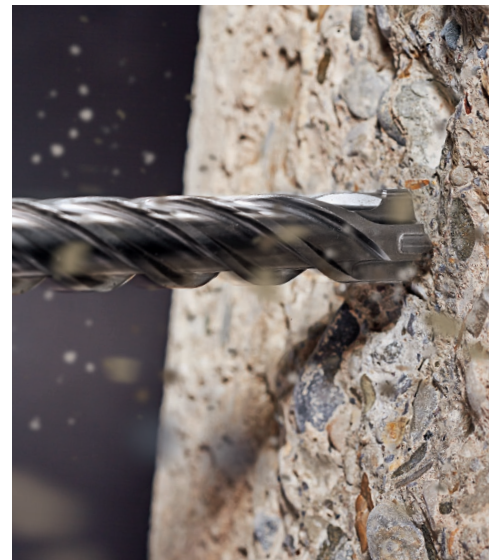

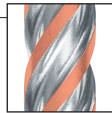

### Maximum security

- Wear marks for identifying the wear limit in accordance with the PGM
- Reinforcement chamfers prevent jamming in case of reinforcement hits
- 4-spiral helix geometry for lower vibrations to protect people and machine

### Extremely durable

- 4-spiral helix geometry for an evenly spread wear
- Drill bit body made of high-quality tempered steel [34CrNiMo6]

### Range of application

## ROTARY HAMMER DRILL BIT WITH 2 CUTTING EDGES SDS-PLUS

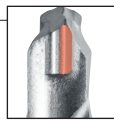

### Maximum speed

- 3 crushers for extremely fast material destruction
- 2-spiral helix geometry for a rapid removal of the drilling dust

### Maximum security

- Wear marks for identifying the wear limit in accordance with the PGM
- Innovative geometry of the carbide plate for an exact fit on the drill bit body
- Pilot centering tip for precise spot-drilling without slipping off

### Extremely durable

- Wide spiral backs and core-reinforced helix for an even wear and high breaking stability
- Drill bit body made of high-quality tempered steel [34CrNiMo6]

### Range of application

- Concrete

- Masonry

- Natural stone

- Sand-lime brick

# PROSTEP

FAST AND PRECISE - THE REVOLUTIONARY TWIST DRILL BIT WITH STEP TIP

## TWIST DRILL BIT DIN 338 TYPE N

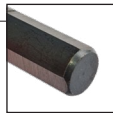

### Remarkably versatile

- For extremely circular holes - even in thin materials
- Very clean entry and exit holes - even when drilling by hand
- Significantly higher drilling speed compared to conventional metal drill bits
- No center punching necessary due to self-centering step tip - even in pipes and rounded materials
- No pre-drilling required
- Ideal for reaming existing boreholes and drilling out rivets
- Perfectly suited for cutting threads due to the extremely precise drill hole walls
- Energy-saving work due to reduced contact pressure
- Step tip geometry enables angled drilling
- Designed to drill: stainless steel (HSS-Co 5%), alloyed and unalloyed steels, cast iron, sheet metal, non-ferrous metals, acrylic glass, aluminum, plastics and wood

### Maximum fit

- 3-surface shank from  $\varnothing$  5 mm leads to optimal transmission of force and prevents spinning in the drill chuck

### Technical data

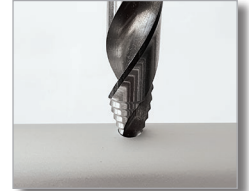

- With step tip from  $\varnothing$  3 mm (number of steps varies, depending on the diameter)
- Split point from  $\varnothing$  3 mm
- Point angle 118° (HSS-G) and 130° (HSS-Co 5%)
- Spiral angle 26° - 32°
- Tolerance h8

### No center punching required

Even for pipes and rounded materials

Conventional metal drill bit

PROSTEP

### Circular shaped holes

Even in thin-walled materials

Conventional metal drill bit

PROSTEP

### High quality drill holes

Ideal for cutting threads

Conventional metal drill bit

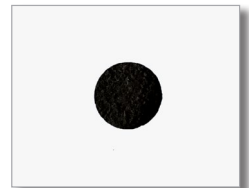

PROSTEP

### Extremely low risk of material fracture

Even when drilling in acrylic and plexiglass

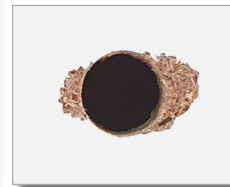

Conventional metal drill bit

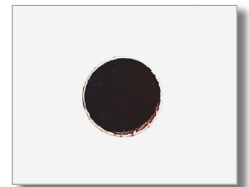

PROSTEP

### Clean entry and exit holes

Ideal for coated panels

Conventional metal drill bit
